B.Sc. (Bio)

Programme Outcome: -

- P.O.-1. Students will gain sufficient knowledge of fauna and flora.
- P.O.-2. Students can search job in many area i.e. as chemist, in fishery dept, environmental department, teaching etc.
- P.O.-3. Students can do their own business in Mushroom production, Prawn and Fish culture, Honeybee Culture.
- P.O.-4. Students can develop interview skill and personality.
- P.O.-5. Students will have knowledge of chemicals so that can get job in field of pharmacy, chemical analysis.
- P.O.-6. Though practical exercises, students have knowledge about chemicals, animals and plants.

Programme Specific Outcome :-

- P.O.-1. After passing three years B.Sc., degree programme students will get a good knowledge of fauna, flora a computer and chemical.
- P.O.-2. Students who passed with maths group will have a number of practical exposure which equips the students to face the research challenges in mathematical.
- P.O.-3. Students can develop a conceptual understanding of physics principles. They will able to demonstrate concepts in Newtonian mechanics, thermodynamics and quantum mechanics.
- P.O.-4. Graduates with B.Sc. Degree should be able to transfer and apply the acquired concept and principles to study different branches of Physics, Chemistry, and Biology.

Botany:-

Students learn about plants, different types of medicinal, desert and various job opportunities available after completion of this course. They can work in forest dept., as nursery manager, ecologist and in research field.

Zoology-

Students study about the animals, their anatomy and their behavior. In second year they learn about the fish, prawn, honey bee culture. They also study about the pearl industry. In final year they study biotechnology, microbiology, genetics, ecology. After completion of this course they can choose to work in fisheries dept., pollution control board as ecologist. They can also work in medical field by taking specialization like as a Doctor, Nurse, Pharmacist Radiologist etc., research field.

Chemistry: -

Student learns process analysis of organic and inorganic chemical. They also learn operating process of instruments and lab apparatus or analysis and identification of different compound and sample. Student learns theoretical concept of chemistry and they can pursue the following job area.

Chemist: After UG with chemistry or PG with chemistry, they can choose work of chemist in different public and private industrial sector.

Teacher: After UG with chemistry, one can choose a job of schoolteacher.

PG-MSc.: After BSc with chemistry one can pursue their PG course in chemistry and can a number of job opportunities as follows-

- **CSIR-NET** exam leads to college lectureship job or pursue PhD and can choose a job of Scientist/ College Teacher/Professor/Researcher in various field of chemistry.
- **Analyst;** After PG and PhD one can choose work as analyst in industrial firms, forensic labs etc.
- After UG/PG, one can enter in different national and state level competitive exams like **PSC, UPSC, ONGC, GATE, DRDO** having excellent job career.

Over all Programme Outcome of B.Sc. (Biology) –

After the completion of this course students can work as an ecologist, pharmacist, chemist or as a researcher. They can opt to do specialization in medical field and can become a doctor, nurse, radiologist or can work in other medical related sectors. Students can also work in the teaching dept. as a teacher, professor or lab technician.

B.Sc. (Mathematics)

B.Sc. Physics

CAREER OPPORTUNITY FOR PHYSICS:-

A physics degree is a great starting point for a career in scientific research as well as in a range of career in the business finance, IT and engineering sectors.

- 1) Academic Researcher
- 2) Acoustic Consultant
- 3) Astronomer
- 4) Geophysicist
- 5) Higher Education lecturer & Professor
- 6) Research Scientist
- 7) Clinical Scientist, Medical Physics
- 8) Telecommunication Researcher
- 9) Nanotechnologist
- 10) Technical Author

B.Sc. Mathematics -

1. Scientific temper will be developed in students.
2. Students will acquire basic Practical Skill and Technical Knowledge along with domain knowledge of different subject in the science stream.
3. Students will become employable; they will be eligible for career opportunities in Industry, or will be able to opt for entrepreneurship.
4. Students will process basic subject knowledge required for higher studies, professional and applied courses like management studies, Law etc.
5. Students will be aware of and able to develop solution oriented approach towards various social and Environmental issues.

A. Algebra and Geometry

3. To learn Analytical geometry of 2 and 3 dimensions which include study of conics, planes, lines, sphere, cone and cylinder.

B. Calculus and Differential Equations

1. To learn basic properties of real numbers and its subjects which is backbone of Real Analysis
2. To Study Functions in detail which is a fundamental structure in all science, and to be able to check continuity of a function.

C. Mathematics Practical

1. Problem solving skills of students are enhanced.
2. Theoretical concepts are strengthened by solving maximum number of problems.
3. Due to one to one interaction with the teacher, doubts of the students are cleared if any.
4. Students learn how to apply mathematical concepts to practical and real life problems
5. Interdisciplinary approach is developed.

D. Area of Education:

1. They can get opportunity in teaching field.

OUTCOME

2. They can appear in various administrative job like, Collector, Deputy Collector and Civil services.
3. They can get opportunity to enroll in IIT Mathematics

B.A. Programme

Program Outcome –

- P.O.-1. Student will gain sufficient knowledge of all the braches of Geography like teaching administration etc.
P.O.-2. Students are expected to how a good communication skill both verbal and nonverbal.
P.O.-3. Art students are expected to well social skill as humanities.
P.O.-4. Job oriented skill like Teaching, Revenue, women and child development and civil services.
P.O.-5. Interview skill and personality development skill are also expected from them.

Program Specific Outcome –

1. After facing the three year B.A. Degree programme students will gain a complete knowledge for geographical, social, political knowledge.
2. Students are able to be self reliant with respect to employment they can run according to their capacity.

Political Science: -

There are many possibilities for a student studying political science, which is as per the following:

1. You get opportunity of service in the field of employment and politic
2. Opportunity to get appointment in UPSC, PSC, SSC and other competitive examinations
3. Under the teaching/study work, there is an opportunity for appointment in school education/higher education
4. Students get information about contemporary and foreign politics
5. Studying students get information about various political/constitutional organizations
6. Studying student gets opportunity to know Indian constitutional system, governing administration as well as foreign one gets opportunity to know the constitution and system
7. Under the law/state government law, you get an opportunity to understand the state, national/international subjects.
8. Under political science, students studying for social, political, religious, educational and cultural subjects get opportunity for research work.
9. Get an opportunity to understand national/international problems
10. Politics becomes ecstatic to studying students fundamentally self-sufficient

Dept. of Geography

Carrier opportunity for geography

1. **Area of Education** – As a B.A., M.A., M.Phil., Ph.D. As a teacher professor etc.
2. **Civil Service** – As a I.A.S., I.P.S, Deputy Collector, Dy S.P., Tehsildar etc.
3. **Town and Country Planning** – In the carrier job opportunity for graduate geographer
4. **Dept. of Cartography** – Need geography students.
5. **National Atlas** – This is very good carrier for geographers
6. **Survey of India** – Its located Dehradun (Uttarakhand). Here opportunities for geographers
7. **Census** – Finds carrier of geographer.
8. **ICAR** – Indian council of agriculture research, New Delhi, need geographer land for land use and mapping.
9. **Remote Sensing** – Dehradun and Hyderabad both available service opportunity for geographers.

Dept. of Sociology

Social science not only increases the human knowledge but also helps to study and demolish various social problems. It is an important subject because we are social animal. In addition, it also plays an important role in economic and employment in the field of govt. and non-govt. agencies are as follows:
